

## Topic

Our topic is "Lights, Camera, Action!" During this topic the children have chosen to explore life in the 20th century, the history of our local area, the development of technology, the theatre, how light travels and how the sun and stars shine. We will investigate our topic across the curriculum, incorporating and consolidating Numeracy, Literacy and ICT skills.

If you can support our topic in any way (such as with photos, artefacts or hands on) please let me know as any help is greatly appreciated.

## Literacy

This term we will be reading and writing:

Fiction: play scripts.

Non-fiction: persuasive writing.

Our class novel will be *Leon and the Place Between* by Angela McAllister.

Individual readers will be listened to daily so please ensure reading books are in school everyday.

## Numeracy

Numeracy topics for this term include: developing understanding of number facts, inverse operations, money skills, checking strategies, problem solving, time and mass.

There will be many opportunities for children to apply these skills to their work across the curriculum.

Pupils are encouraged to practise multiplication tables (2, 3, 4, 5, 6 and 10) to support their problem solving in the classroom.
